

Q.C.M. Holding AG is a leading Swiss aviation services company headquartered in Belp, with campuses in Vienna, Prague, Budapest and Poland. With a team of highly trained aviation experts, Q.C.M. offers a wide range of aviation services for business jet owners & operators, including DOA, flight organization & planning, courses & training for aviation professionals, and fleet management as an approved CAMO.

As a Part 21J Design Organisation, the Design Organization Approvals Team at **Q.C.M. design GmbH** is entitled to classify and approve minor changes, as well as help our customers plan for major changes, to ensure the safe and efficient operations of our clients' aircraft.

As an intern in our Design Organisation department, you will have the opportunity to gain valuable experience and contribute to the success of our dynamic team.

Internship – Certification Design Engineer

Duration: 9-12 months

Location: Vienna, Austria

Overview:

We are seeking a motivated and detail-oriented individual to join our team as a **Certification Design Engineer Intern**. This internship offers a unique opportunity to work closely with our experienced certification engineers, learning the intricacies of EASA certification processes and related engineering activities. As an intern, you will play a vital role in supporting our design certifications while gaining valuable insights into the aviation industry.

Tasks & responsibilities include:

- Supporting the team with the certification and development of changes to aircraft in accordance with EASA Part 21 (i.e. certification of COM/NAV/GPS systems, Interior refurbishment modifications etc.)
- Preparing, researching, and drafting of pre-engineering documents for quotations
- Developing compliance documents in accordance with to the DOA internal approved procedures

Qualifications & Requirements:

- Strong passion for aviation and a genuine interest in aircraft design and engineering.
- Fluent in English (additional languages are a plus)
- Proficient in Microsoft Office applications
- Strong interpersonal and communication skills
- High sense of responsibility and reliability
- Excellent organizational skills and attention to detail
- Willingness to learn, take initiative, and contribute to the team's success

What we offer:

- Hands-on experience and exposure to various aspects of design certifications and approvals, including Flame Testing
- Mentorship and guidance from experienced professionals in the aviation industry
- Opportunities to participate in internal training programs and industry-related workshops
- Networking opportunities with professionals in aviation and related fields
- Potential for future career growth and employment opportunities within the company
- Opportunities to visit other Q.C.M. campuses throughout Europe, to gain insights into how other aviation service departments operate

Join our team and embark on a rewarding internship experience in Design Approvals. Help us ensure safe and efficient aircraft changes while gaining valuable skills and knowledge in the aviation industry.

This position is limited to 1 year with a 100% pensum and tailored to aspiring Aviation professionals.
