EXPERT GUIDANCE & INTEGRATION, GLOBALLY

Our comprehensive UAS services are tailored to government, military, industrial, scientific, and commercial clients. Our team of experienced drone experts helps organizations worldwide safely and efficiently adopt and scale drone operations.

COMPLIANCE & TRAINING EXCELLENCE

We offer fully customizable training and certification programs, along with expert support navigating complex drone regulations like EASA, FAA, SORA, and PDRA. Our deep regulatory knowledge ensures clients remain compliant across diverse operational environments.

RELIABLE OPERATIONS & ONGOING SUPPORT

From initial consultation to ongoing operations, QCM delivers trusted UAS solutions alongside our partners. Whether you're just starting or expanding your drone capabilities, we support you every step of the way.

QCM UAS SERVICES WHO WE ARE

QCM is a recognized and trusted leader in compliance with aviation regulations, specializing in regulatory and Part-147 training, consulting, Part-21J design approvals, and Part-CAMO technical management.

QCM UAS Services builds on this expertise to help organizations adopt drone technology with confidence.

Our UAS specialists provide guidance to public and private organizations to ensure drone operations are implemented safely, effectively, and in line with long-term objectives.
